TEMPLES OF GOD AND HEALTH

By John M. Williams

KOZ-MIC-TEM-PLERS: "Don't you know that you are the Temple of God, and that the Spirit of God dwells in you? If anyone defiles the Temple of God, him shall God destroy; for the Temple of God is holy, which Temple you are." I Corinthians 3:16,17

BIBLICAL & SCIENTIFIC OPERATING SYSTEM: Computers need an operating system, and in a similar way, this book provides an operating system for humans, and intends to combine the best of Judaism, Christianity, science, common sense, mass media, along with some creative ideas.

A CHALLENGE: Let's build a healthy, optimum cosmic order, "God's will on earth as in heaven." We can certainly make the attempt. All groups can also seek common ground where possible, even if they do not agree in other areas. A statement such as "Eat health food" should be widely accepted.

IN THE IMAGE OF GOD: Christianity tells us God is love, and John the Revelator tells us God is like an explosion from which heaven and earth are blown away. Put these together, and you can say God is a "love bomb", and we are in the Image of God. May the Great Creator guide and protect us all.

**Do as much good as you can,
For as many people as you can,
For as long as you can,
In as many ways as you can.**

Repeated by my father,
Dr. Ward R. Williams, October 2, 2005.

**Why don't you write up more of
Your religious and social beliefs?**

Requested by a friend,
Who later was wounded and died of war injuries,
Phil McKinney, a business major at Evangel College.

A sixth grade vow to myself:

**I became aware that the religious and cultural-
traditions of society were profoundly in error.
Society was in decline, like a balloon slowly
sinking at a party. I vowed that I wanted to
correct the situation for myself, and also correct it
so thoroughly that others would not have to deal
with the same declining social order. I did not
want to let the erroneous situation past me to
keep bothering others.**

John M. Williams, editor-author.

SHIELD of FAITH

A little creative symbolism.

The outer shield with a "Cross of Christ" or a "Cross of Laminine" in the background contains the "double-cross love-bomb" symbol.

However, the "double-cross love-bomb" symbol contains two crosses and two circles, which can symbolize Christ, laminine, polarity, and an explosive shock wave. So each symbol contains the other, and can be used interchangeably.

CROSS OF CHRIST

CROSS OF LAMININE

The cross of Christ, by whom the Bible tells us, "all things consist and are held together."

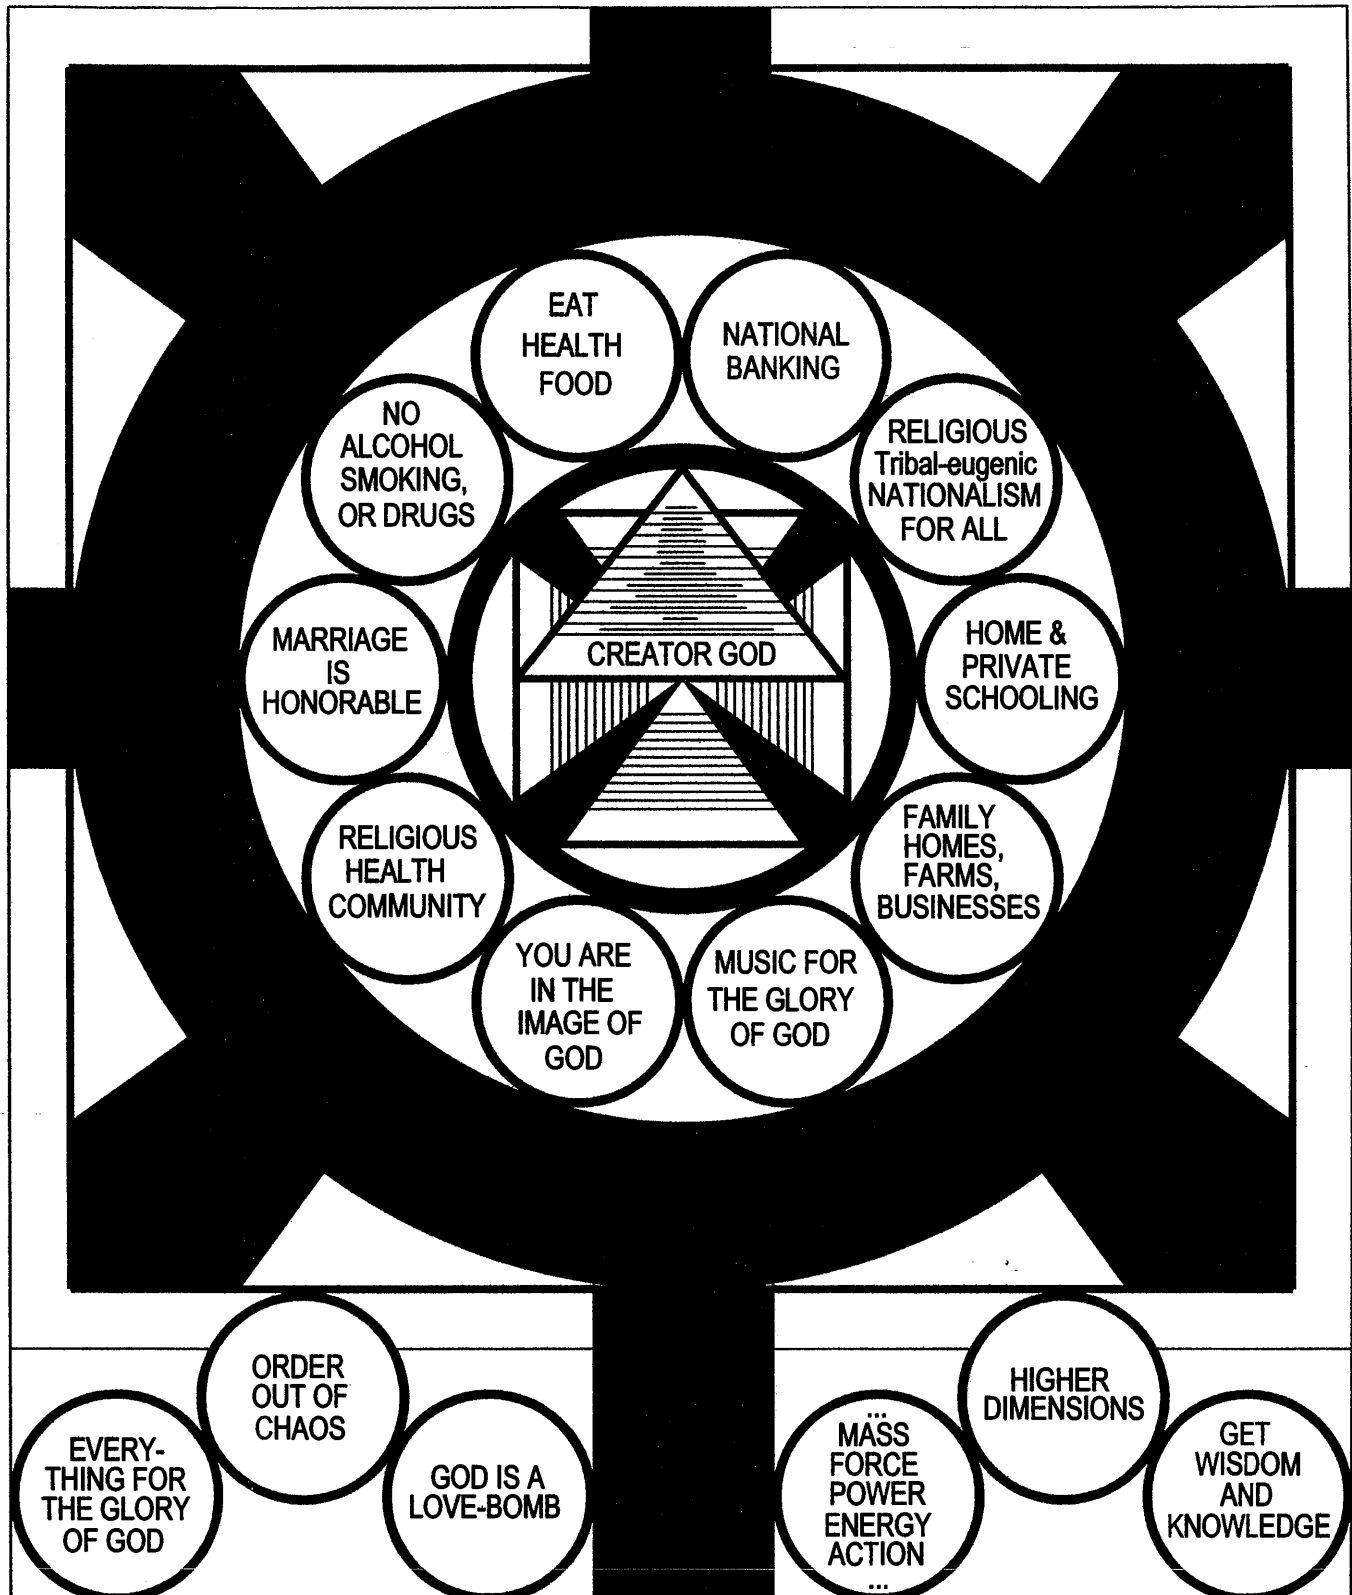

The cross of laminine, a similar cross that is found in the structure of the protein laminine, by which the cells of all living things stick together.

This is one of the "amazing coincidences between the Bible and science.

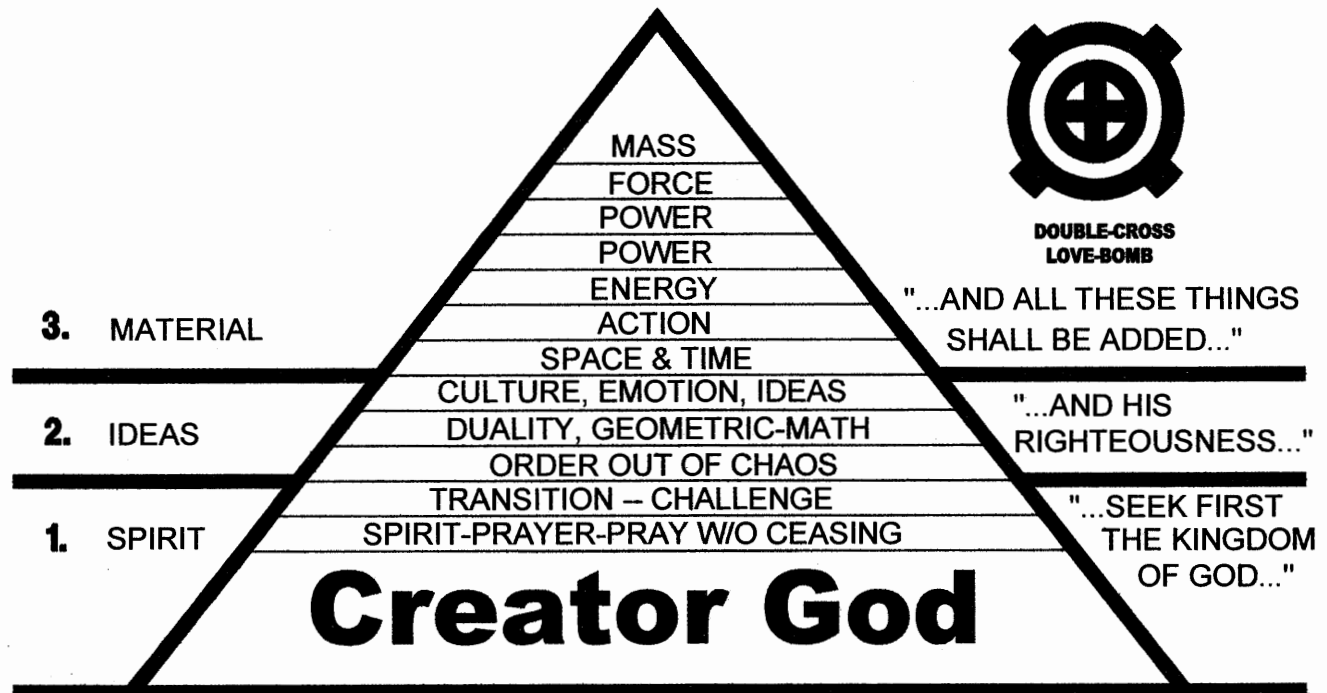

A KOZ-MIC Hypothesis:

THE BLAST OF A LOVE-LOVE BOMB FROM HEAVEN FOREVER

TRUE LOVE, INFINITE INTELLIGENCE, AND INFINITE ACTION-ENERGY EXIST AT ALL POINTS FOREVER.

A Pyramid Hypothesis

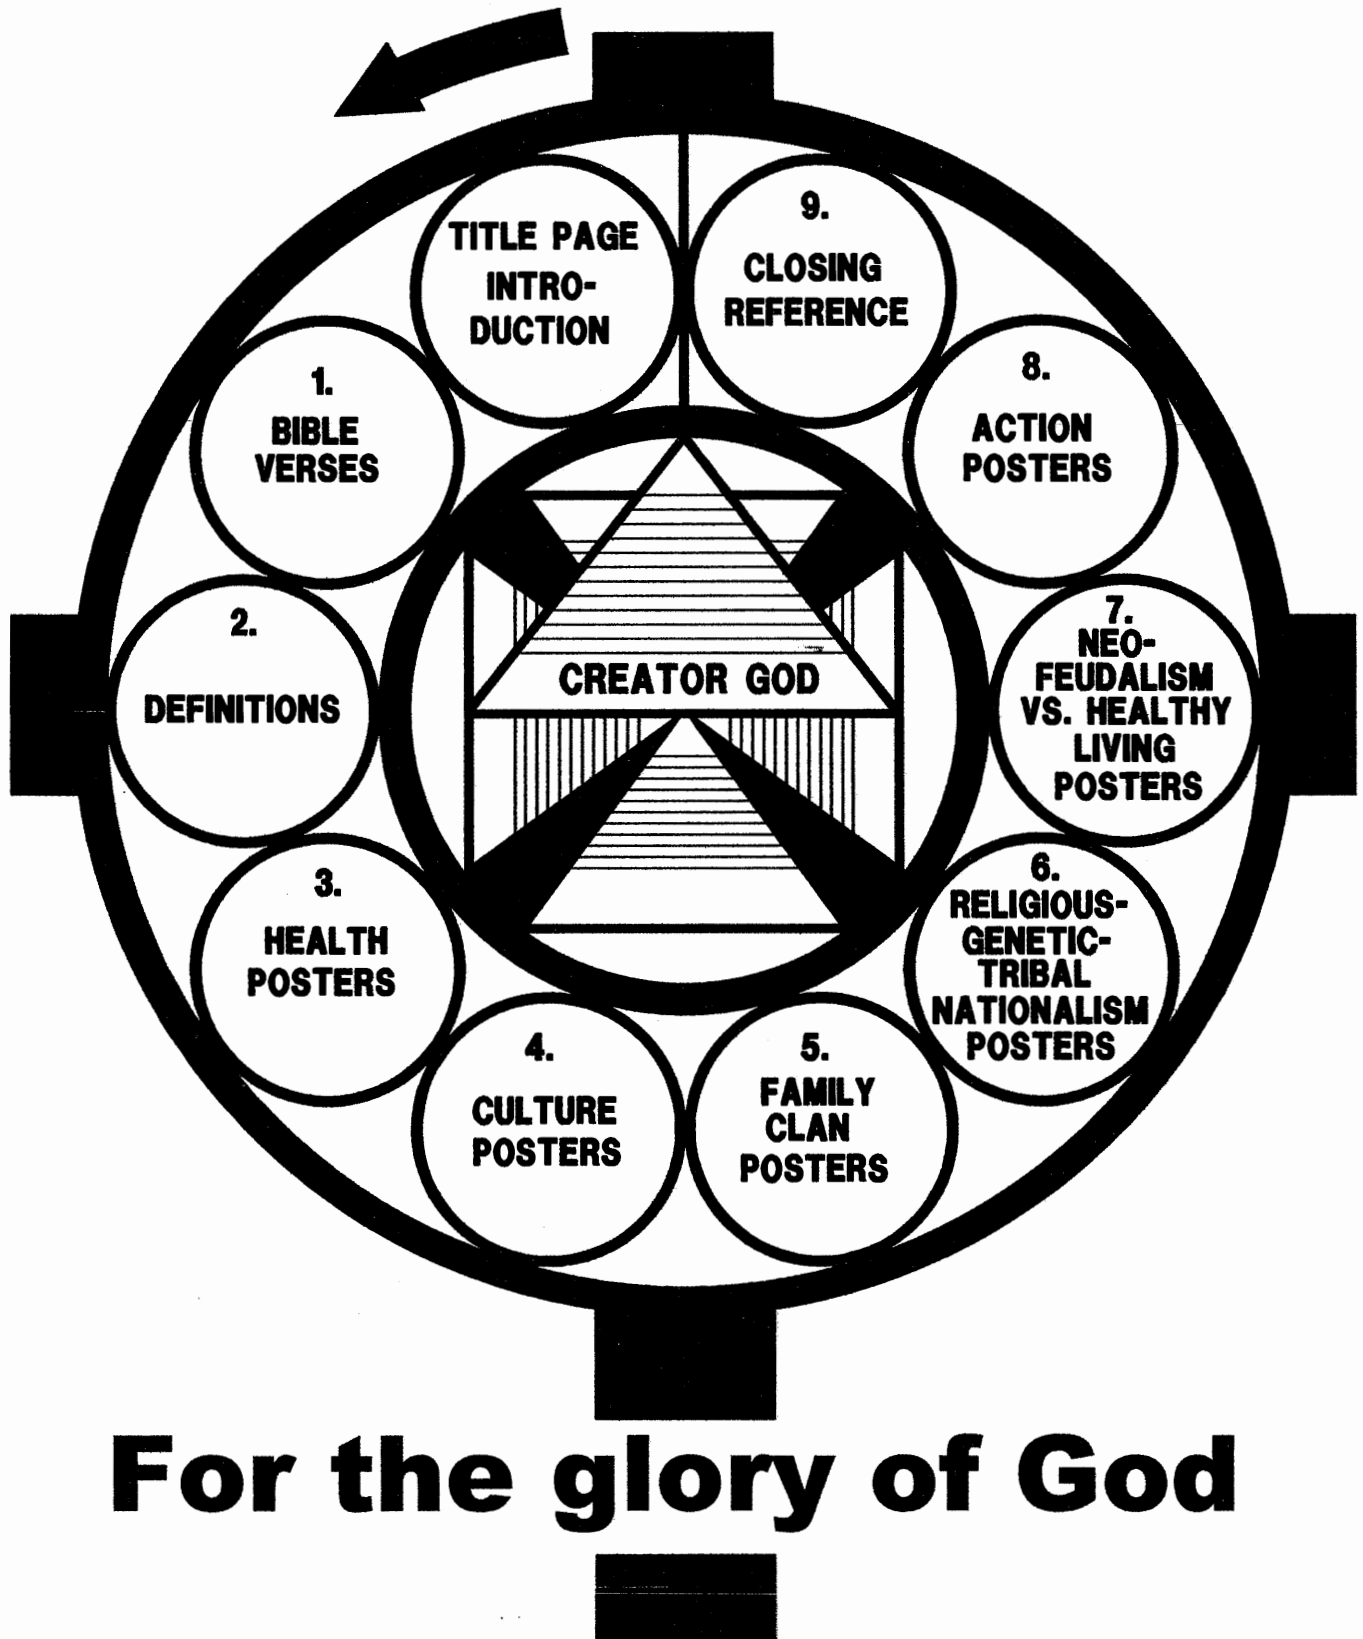

Thirteen levels of central principles:

1. Start with a list of 25 or more of the most basic principles of life you can think of:
God, health food, positive thinking, health and survival, physical fitness, joy of life...
Keeping clean, keeping neat, coordinated colors... Spirit, prayer...
Economic system, social organization, territory, home ownership, marriage and family, sexual morality... Air, water, vitamins, minerals, calories...
Healthy culture, education, wisdom and knowledge, scientific attitude...
Laws of nature, cause and effect, order out of chaos, magnetic dualities...
Social justice, eugenics, balancing tribal loyalties with justice for others...
Getting high on health at multiple dimensions: spiritual, emotional, intellectual, material...
2. Arrange similar principles together: Nutrition, social organization, appearance, religion and spirit, education and culture, genetics and nationalism, territory, marriage and sex...
3. Within each group, it appeared to the author that some principles were more basic than others, and that they could also in some cases be arranged in order of importance....
4. At this point, the principles appeared to naturally fit in order of importance on an approximately thirteen level pyramid with four sides...

The thirteen levels of principles seemed to fit well into the three level Biblical statement: "Seek first the kingdom of God (Level One), and His righteousness (Level Two), and all these things will be added unto you (Level Three).

Introduction and Foreword...

Temples of God and Temples of God and Health:
Are the primary names of this publication, based on Bible verses.

The purpose of this book: Is to provide a positive program for a healthy, religious social order, in contrast to 12,000 years of unhealthy and alcoholic social orders...
